FOR IMMEDIATE RELEASE:

Children's Home & Aid Launches the Madison County Coordinated Intake System

Granite City, IL August 25, 2021 - Children's Home & Aid is proud to announce the launch of the Madison County Coordinated Intake System. The project is supported through a grant from the Governor's Office of Early Childhood Development - Preschool Development Grant Birth-5 (PDG B-5). Illinois envisions a future in which there are coordinated points of entry throughout the State for home visiting as well as other early childhood and family supports services. Four community collaborations, Children's Home & Aid Child Care Resource & Referral Program in Madison and St. Clair counties, DuPage Home Visiting Network in DuPage county, Sangamon Success 0-3 Initiative in Sangamon county, and Sauk Valley STARS Early Childhood Education Coalition in Lee, Ogle, and Whiteside counties are included in the pilot. Each will use the Integrated Intake and Referral System (IRIS), a web-based community referral system developed by the University of Kansas Center for Public Partnership and Research. "IRIS was designed to help community organizations connect those they serve to resources within their community. Leveraging relationships, technology and data, community partners can serve families better," said Mary Orem, IRIS Implementation Coordinator.

The Madison County Coordinated Intake System consists of community partners from public schools, social service agencies, and Early Intervention. Madison County Coordinated Intake will connect expectant parents and families with children (prenatal to age five) to home visiting services and other community resources through IRIS. Valuing family choice, the Coordinated Intake System will offer family's early childhood program information, options, and referrals that are responsive and respectful of each family's needs and located within their community or county. Services are free and voluntary and can be

accessed by calling Children's Home & Aid, **800-467-9200, Ext. 390** or through one of the community partners.

Heidi Elliott, Children's Home & Aid Coordinated Intake Manager stated, "Our agency was selected through a competitive request for support and because of our established relationships with a diverse group of community partners. The goal of the grant is to ensure that families in Madison County receive family support and our youngest children, have access to services that provide a strong foundation for school readiness, no matter what services a family chooses within the community."

Broad-based Community Partners

Who is Children's Home & Aid

Children's Home & Aid is a leading child and family service agency in Illinois. Each year, it protects, educates, and counsels more than 40,000 children, youth, and families. Since 1883, Children's Home & Aid has been a passionate advocate helping to shape public policy in child welfare, early childhood, and juvenile justice. Children's Home & Aid is recognized for establishing best practices and achieving outstanding results through its programs and services that focus on child abuse prevention, healthy child development, and strengthening families. *The agency's mission is to advance the well-being of children by investing in families to disrupt the systemic and multi-generational cycle of racial, social, and economic inequality. Its vision is an equitable world where all children and families thrive in strong communities.*

The Southern Region of Children's Home & Aid provides *pregnancy counseling, adoption, in-home parent education and support to teen mothers and their children, foster care, family preservation and education, and subsidized child care* to help move families toward self-sufficiency. The Southern Region works to *advocate for the rights of children* and to *inform the public of the needs of children*. All efforts are aimed toward assisting families to remain intact through the provision of needed services in numerous communities.
